Psychic Empowerment with Roxanne

Dear Roxanne,
I have been waiting 10 years for this opportunity to express myself thoughtfully with a person like you. I'm glad to tell somebody about the privacy of my life. I am 54 now. I feel good about what I believe, or at least I think I know a little bit what life is about. I am married for more than 20 years to a nice, lovely woman. We feel that we help each other. My wife is a Trance Medium, and I myself believe that I have some kind of clairvoyance. I certainly feel that we have been help for the Spirit World. Somehow, as you may know, we are sometimes confused and disappointed, especially myself, and I am the one responsible for the Spiritual growth of my family here in the U.S.A., and in South America, Venezuela, from where I came. I just treated myself with a Homeopathic physician in my country and I also feed my Spirit by helping many families, introducing them to the studies of Spiritism through a group that we have formed, based on brotherhood, reading and studying the greatest writers of Spiritism.

I live a normal life like any regular guy. I have made a lot of mistakes and it has taught me the hard way sometimes. I also believe in Karma, and when we are going through tough times we ask for help to guardian Spirits. I ask you to please help me to

clarify some blocks to our sexual life, in spite of the love and Spiritual happiness that we feel for each other. I don't know why, but it seems to be a hard time for me to go through, in spite of my consciousness about the world. It's as if I know that I need more. Help me Sister Roxanne.

The Universal Solidarity is with you to help and guide. God bless you always, and thank you.

-Light Worker

Dear Light Worker,

You have so far experienced a very fulfilling life, particularly your Karma in love and Spirituality. Many people never have the opportunity to experience love in the way you have, and the meeting of the Minds with a Soul Partner with the same Spiritual outlook, or one could say "Inlook." You have also experienced in many ways an adventurous life, and did you know that freedom is your Karma? Now your energy is low, physically, mentally, and emotionally, yet you are very connected to the Infinite. You have many Guardians on the Other Side holding you up, especially now. You have been going through many days without much joy. In the past you had many dreams, which have not been fulfilled. As soon as you begin manifesting your dreams,

as they say in France, "La Lune de Miel," your Honeymoon will begin again.

Freedom to you is inner happiness. Go back in time. Reflect. Even on the dreams you have not fulfilled. I feel one of your dreams was living on the land in the great wide-open spaces with your family. Animals are also important to you. Why did you give up this dream? Also, it would be a good idea to look inside your heart where there is hidden anger toward a male family member when you were growing up. Return to your roots where you once were. Let go of conventionalism, and keep helping people. Without a doubt, you are a Light Worker. Be free mentally, physically and emotionally. I see you as a possible prisoner or slave in a past life. Your Karma in this life is to break free of it, then your future with the one you love will be much more harmonious in every way.

With Love & Light
